

#### Forward-Looking Statements and Disclaimers

This presentation contains certain statements that are considered forward-looking statements within the Securities Act of 1933, as amended, and the Exchange Act of 1934, as amended. Forward-looking statements, which are based on certain assumptions and describe our future plans, strategies and expectations are generally identified by our use of words such as "intend," "plan," "may," "should," "will," "project," "estimate," "anticipate," "believe," "expect," "continue," "potential," "opportunity" and similar expressions, whether in the negative or affirmative. All statements about future expectations or projections are forward-looking statements. Although we believe that the expectations reflected in our forward-looking statements are based on reasonable assumptions, actual results and performance may differ materially from our forward-looking statements. Factors that could cause future results to vary from our forward-looking statements about our current expectations are included in our annual and quarterly periodic reports filed with the U.S. Securities and Exchange Commission. Except as required by law, we undertake no obligation to update or publicly release any revisions to forward-looking statements to reflect events, circumstances or changes in expectations after the date on which the statement is made.

This presentation shall not constitute an offer to sell or the solicitation of an offer to buy securities nor shall there be any sale of any securities in any state in which such solicitation or sale would be unlawful prior to registration or qualification of these securities under the laws of any such state. National Rural Utilities Cooperative Finance Corporation (the "Company" of "CFC") has filed a registration statement (including a prospectus) with the U.S. Securities and Exchange Commission (the "SEC") with respect to which this communication relates. Before investing in any securities that the Company may offer, you should read the prospectus in that registration statement and the other documents the Company has filed with the SEC for more complete information about the Company and any potential offering. You may get these documents for free by visiting EDGAR on the SEC website at http://www sec gov. Alternatively, by calling collect the Company at 800-424-2954 or any underwriter or any dealer participating in any offering will arrange to send you the prospectus and the related prospectus supplement if you request it.

#### Non-GAAP Financial Measures and Market Data

The information in this presentation includes non-GAAP financial measures. Please refer to our Form 10-K for the Fiscal Year ended May 31, 2024, and 10-Q for the quarter ended November 30, 2024 as filed with the SEC, to find what we consider the most directly comparable financial measures calculated and presented in accordance with generally accepted accounting principles in the U.S. ("GAAP") and for a discussion of why we believe our adjusted measures provide useful information in analyzing CFC's financial performance and the reconciliation to the most comparable GAAP measures. Market data and industry forecasts are used in this presentation, including data obtained from publicly available sources. These sources generally state that the information they provide has been obtained from sources believed to be reliable, but the accuracy and completeness of the information is not assured. The Company has not independently verified any such information. Certain figures have been rounded for ease of presentation and may not sum due to rounding.

CFC: Created and Owned by America's Rural Electric
Cooperative Network

- B Financial Highlights
- Funding & Liquidity
- Appendix

#### **About CFC**

Created and Owned by America's Rural Electric
Cooperative Network

**Formed** 1969

**Entity Type** Tax-exempt, member-owned cooperative.

**Ownership** Created, owned and governed by rural electric cooperatives.

**Headquarters** Dulles, Virginia.

Mission Meet the financing and strategic services needs of the rural electric

cooperative network today, tomorrow and into the future.

**Total Loans, Gross**<sup>1</sup> \$35.6 Billion

**Total Assets**<sup>1</sup> \$37.1 Billion

Membership<sup>2</sup> Primarily 842 electric distribution cooperatives and 68 power supply

cooperatives

<sup>1)</sup> As of 11/30/2024

<sup>2)</sup> As of 5/31/2024

## **Company Overview**

#### **CFC Member-Owners**

#### **Distribution Cooperatives**

Most electric cooperatives are distribution utilities purchasing wholesale power from others to distribute over their own lines to the ultimate customer.

**Power Supply Cooperatives** 

Generation and transmission cooperatives carry high-voltage electricity from generation facilities over long distances. Power supply cooperatives provide both generation and transmission functions.

Most states have statewide associations supported by local cooperatives in that state. They provide a variety of services and legislative representation for members.

**National Cooperative** Services Corporation

Affiliated business line for providing financing to CFC members and their affiliates as well as lending to rural telephone companies and their affiliates

**CFC Affiliate**

<sup>\*</sup> Note: A Securities rating is not a recommendation to buy, sell or hold securities and may be subject to revision or withdrawal at any time.

## Collateral Trust Bonds (CTBs)

Secured by the pledge of permitted investments and eligible senior secured mortgage notes from distribution system borrowers.

Principal amount of eligible mortgage notes pledged must be in an amount at least equal to the outstanding principal amount of CTBs.

#### **TRUSTEE**

(US Bank Trust Company, National Association)

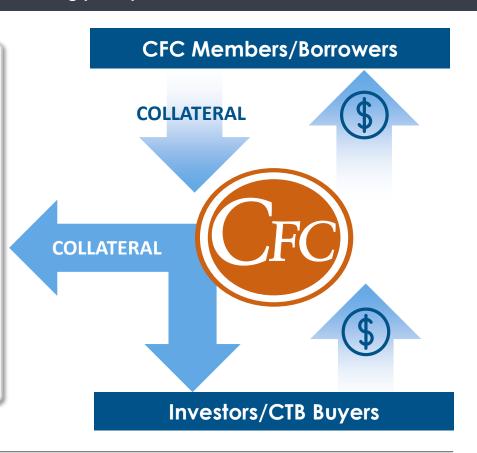

#### **Description of Collateral**

Electric distribution cooperative senior secured mortgage notes:

Lien on all utility assets, a pledge of revenue and after acquired property.

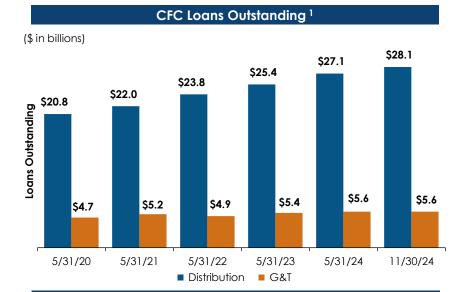

Eligible Mortgage Notes Criteria:

- The borrower must be performing and in good standing with CFC
- Notes of distribution members where 50% or more of the operating revenues are derived from direct sales of electricity
- Distribution members having equity ratios of at least 20% and average debt service coverage ratios of at least 1.35x
- All eligible mortgage notes of any one member cannot exceed 10% of the aggregate amount of all eligible collateral

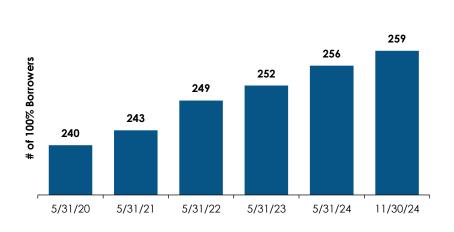

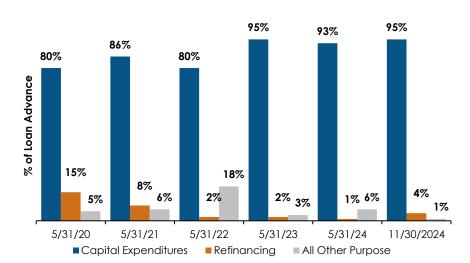

#### Focus on Electric Lending – Largest Private Lender

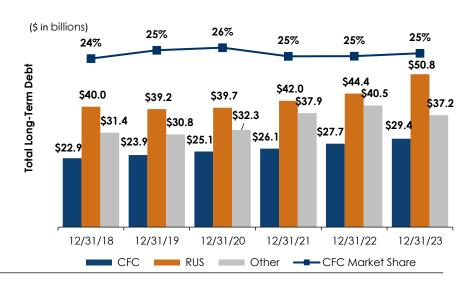

#### **CFC Long-Term Loan Advances by Purpose**

## **2QFY25 Financial Highlights**

(as of November 30, 2024, unless otherwise noted)

#### **Growing Balance Sheet**

- Loans to members totaled \$35.6 billion, a \$1.1 billion or 3% increase from FYE24
- Mainly long-term, fixedrate, secured utility loans

#### **Strong Financial Metrics**

- Adjusted TIER of 1.19x for 2QFY25, 1.20 YTD (6 mo) FY2025
- More than \$2.4 billion Members' equity

## High Quality Loan Portfolio

- Historically limited levels of charge-offs, loan defaults, nonperforming loans, and delinquencies
- Geographically diverse borrower base with 98% loans to electric utilities

## Diverse Funding Sources & Healthy Liquidity

 Diversified liquidity sources supported by cash, investments, committed bank lines, Guaranteed Underwriter Program (GUP), Farmer Mac, and repo facilities

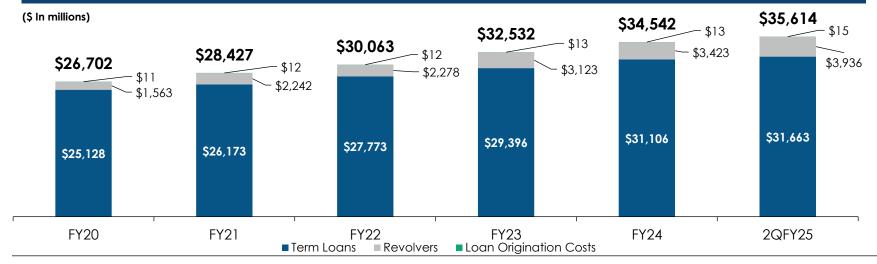

#### Loans to Members: Robust Loan Growth

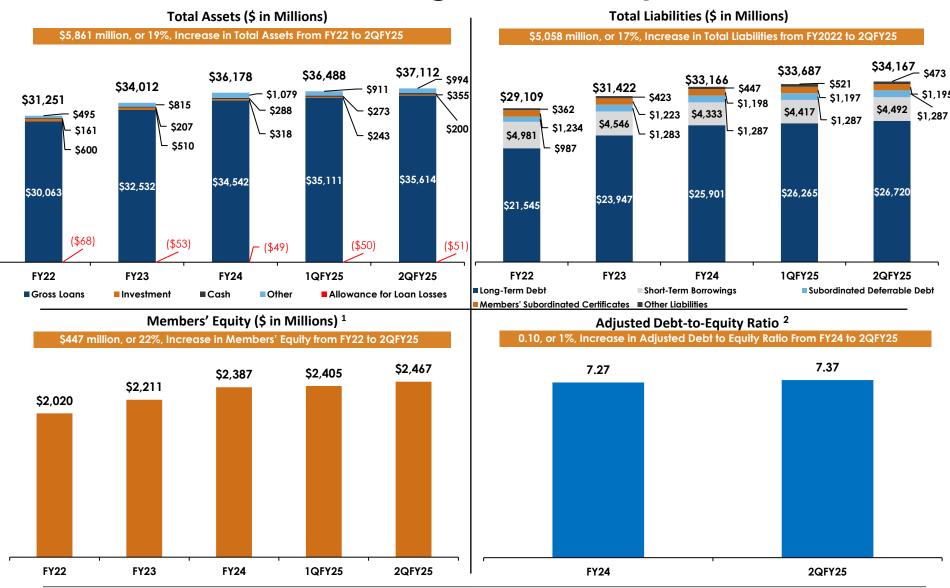

#### Loans to Members by Type

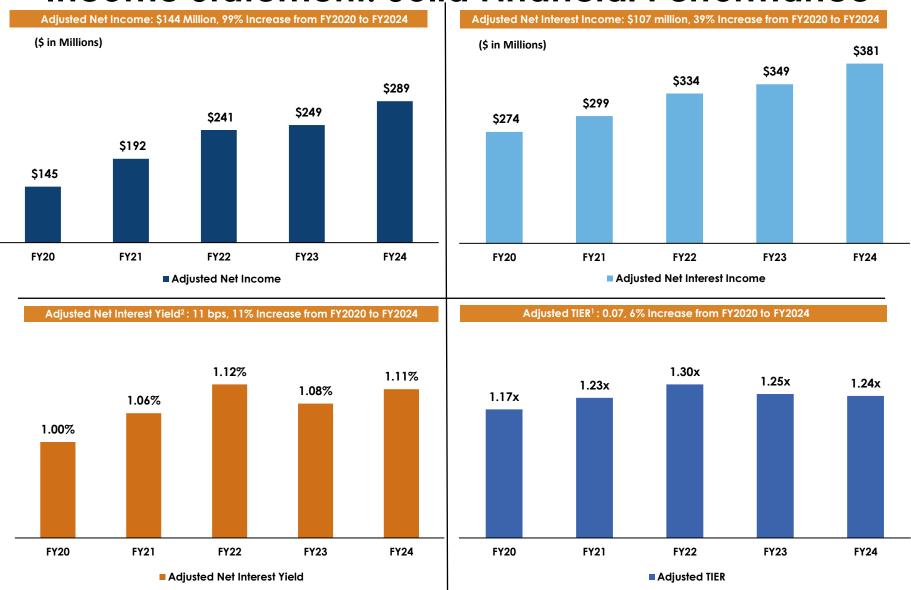

## Balance Sheet: Strong, Sound Capital Structure

- 1) Refer to Appendix for non-GAAP reconciliations.
- 2) Adjusted total debt outstanding divided by adjusted total equity. Refer to Appendix for non-GAAP reconciliations.

#### Income Statement: Solid Financial Performance

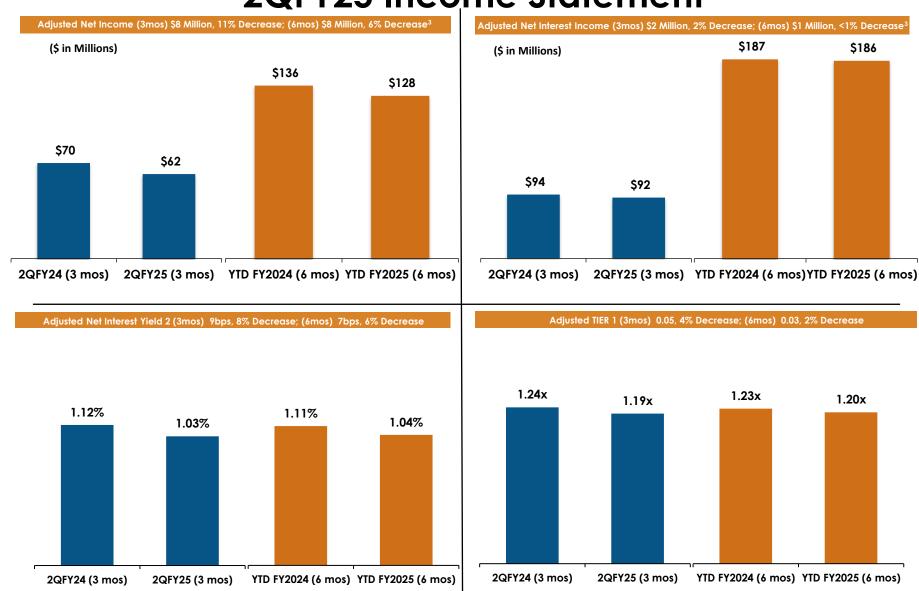

<sup>1)</sup> Adjusted TIER is calculated based on adjusted net income (loss) plus adjusted interest expense for the period divided by adjusted interest expense for the period. Refer to Appendix for non-GAAP reconciliations.

Adjusted Net Interest Yield is calculated based on adjusted net interest income for the period divided by average interest-earning assets for the period. Refer to Appendix for non-GAAP reconciliations.

#### **2QFY25 Income Statement**

<sup>1)</sup> Adjusted TIER is calculated based on adjusted net income (loss) plus adjusted interest expense for the period divided by adjusted interest expense for the period. Refer to Appendix for non-GAAP reconciliations.

<sup>2)</sup> Adjusted Net Interest Yield is calculated based on annualized adjusted net interest income for the period divided by average interest-earning assets for the period. Refer to Appendix for non-GAAP reconciliations.

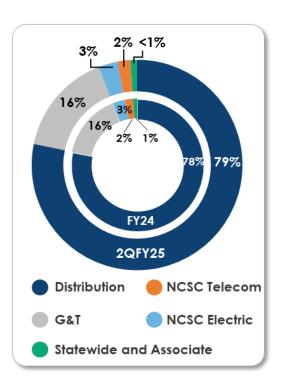

<sup>3)</sup> Refer to appendix for non-GAAP reconciliations

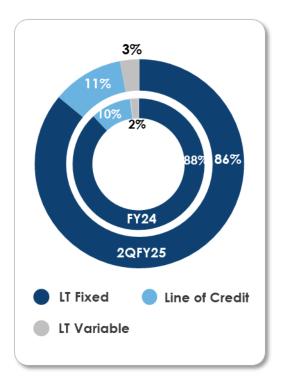

#### Long-Term, Fixed-Rate, Secured Electric Utility Loans

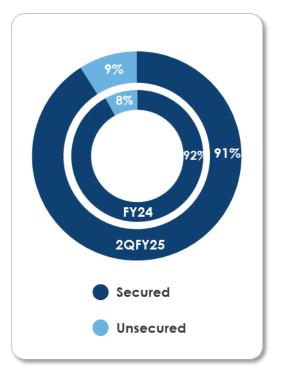

#### **CFC's Electric Cooperative Borrowers/Members:**

- Provide an essential service to their customers/owners.
- Experience limited competition.
- Generally serve exclusive territories with the majority of customers being classified as residential.

- Demonstrate stable operating and strong financial performance.
- Are not rate regulated in the majority of states.

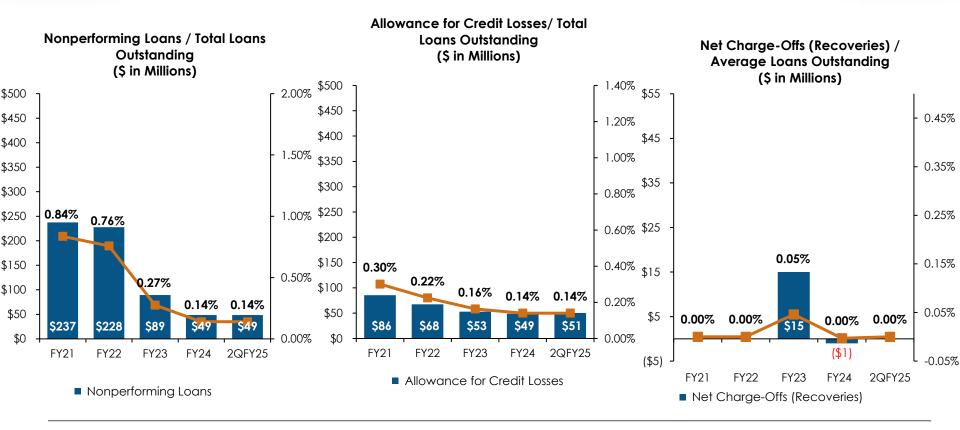

#### **Credit Performance**

Historically, CFC has had limited levels of charge-offs, loan defaults, nonperforming loans and delinquencies.

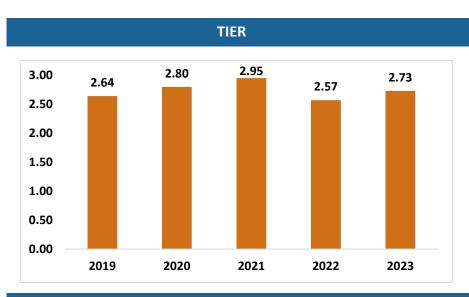

Electric Portfolio: 18 defaults and 8 losses with cumulative net charge-offs of \$100 million in 55-year history.

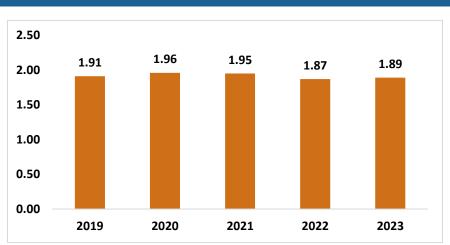

### **Electric Distribution Cooperatives Credit Strength**

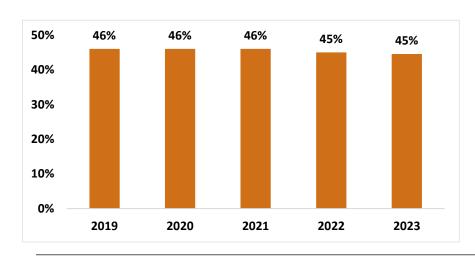

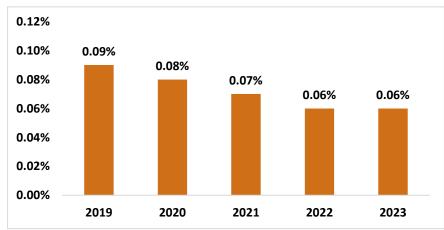

**Modified DSC** 

Equity as a % of assets

Amount Written Off as a % of Operating Revenue

# FUNDING & LIQUIDITY

November 2024

## **Funding Strategy**

## Member Investments

- Direct investments from the membership
- Attract additional and retain existing investments from members

## Dealer CP Issuance

 Minimize wholesale funding risk by maintaining dealer CP balance within a manageable level at each fiscal quarterend

## Institutional Program

 Strategically balance between secured and unsecured issuances by issuing CTBs and/or MTNs from public or private platforms

#### Retail Program

 Target retail investors through InterNotes and subordinated notes programs via Insperex platform

#### GUP & Farmer Mac

Maintain flexibility and preserve availability

### Debt Funding Sources: Well-Diversified Funding Mix

<sup>1)</sup> Abbreviations For Member Investment: Daily Liquidity Fund (DLF), Member Commercial Paper (MCP), Member Select Notes (MSN), Member Medium-Term Notes (MMTN), Member Subordinated Certificates (MSC).

<sup>2)</sup> Abbreviations for Capital Markets Funding: Collateral Trust Bond (CTB), Non-Member Medium-Term Notes (MTN), Subordinated Deferrable Debt (SDD), Non-Member Commercial Paper (CP).

## **FY25 Major Financing Activities**

Revolvers	December 2024 – Closed an Amend and Extend transaction to extend the maturity dates by one year to November 2027 and November 2028 and increased the aggregate commitment amount by \$500 million from \$2.8 billion to \$3.3 billion at closing.
GUP	<ul> <li>July 2024 – Paid down a \$125 million facility and repriced a \$20 million facility until 1/15/2031 @ 4.746%. and repriced a \$100 million facility until 7/15/2033 @ 4.785%.</li> <li>October 2024 – Repriced a \$100 million facility until 7/16/2029 @ 4.434%.</li> <li>December 2024 – Closed on a \$450 million committed facility.</li> </ul>
Farmer Mac	<ul> <li>July 2024 – Advanced \$200 million 20-year note @ 5.07%.</li> <li>January 2025 – Increased the maximum funding availability by \$500 million to \$6.5 billion.</li> </ul>
CTBs	<ul> <li>August 2024 – Issued \$350 million 10-year CTB @ 5.00%.</li> <li>January 2025 – Settled \$300 million 22-year final/13.3-year WAL CTBs @5.23% via private placement.</li> </ul>
MTNs	<ul> <li>September 2024 – Issued \$550 million 3-year DMTN @ 4.12%.</li> <li>September 2024 – Issued \$300 million 3-year floating rate DMTN @ SOFR + 82 bps.</li> <li>September 2024 – Re-opened \$150 million 5-year DMTN @ 5.15%.</li> <li>November 2024 – Issued \$300 million 13-month floating-rate DMTN @ SOFR + 40 bps.</li> </ul>
Subordinated Debt	November 2024 – Launched a new retail subordinated deferrable notes program. Issued \$34 million 30-year retail subordinated deferrable notes as of December 31, 2024.

#### **Member Investments**

Over the last 12 fiscal quarters, member investments have averaged \$5 billion as of the end of each fiscal quarter.

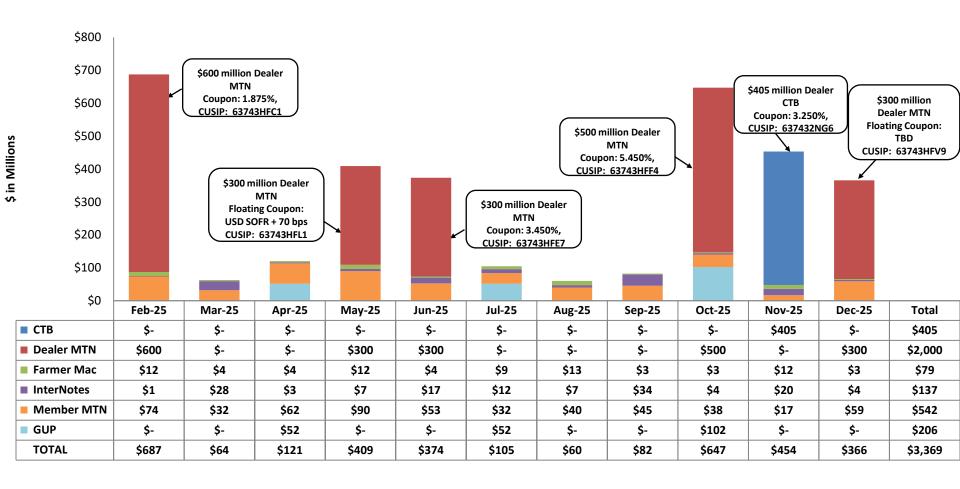

Member investments have been stable over the years.

### **2QFY25 CFC Credit Highlights**

#### Organic balance sheet expansion.

- 96% of total assets consist of loans to members.
- 98% of loans are to electric utility companies.

#### Consistent and stable financial metrics.

- Adjusted TIER of 1.19x for 2QFY25 above our target of 1.10.
- Adjusted debt-to-equity ratio increased to 7.37 at 2QFY25 from 7.27 at FYE2024.
- Members' equity increased to \$2.5 billion at 2QFY25 from \$613 million in FYE2008.

#### Pristine loan portfolio.

- Extremely low default rate and charge-off history for the electric loan portfolio.
- 91% of loans are made on a senior secured basis.

#### Healthy liquidity and diversified funding sources.

- Diversified liquidity sources supported by various funding sources (cash, investments, committed bank lines, GUP, Farmer Mac and repo agreements).
- 1.5x liquidity coverage at 2QFY25\*\*.
- Steady member investments over the years.

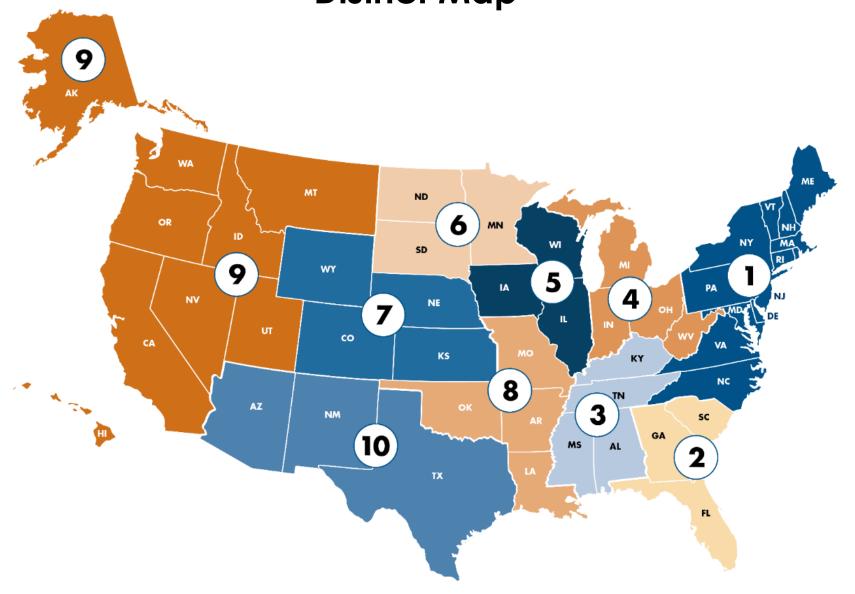

#### **Corporate Governance**

- CFC is committed to strong corporate governance.
- Board of directors consists of up to 23 members.
- 20 managers and directors elected from 10 geographic districts.\*
  - Two from the industry's trade association, National Rural Electric Cooperative Association ("NRECA").
  - One at-large position elected from general membership that meets the requirements of the audit committee financial expert as defined by Section 407 of the Sarbanes-Oxley Act of 2002.
- No members of CFC management hold board seats.
- Elected board members serve a 3-year term; limited to a maximum of two consecutive terms.
- Audit, finance advisory, executive, loan, compensation and corporate relations committees are maintained by the board.
- Audit committee consists of no less than seven board members. Meetings held up to five times annually.

## **U.S. Electric Utilities Overview**

In the U.S., there are primarily three kinds of utilities that are distinguished by their business structure. They are electric cooperatives, investor-owned utilities ("IOUs") and municipal systems.

An **electric cooperative** is owned by the members it serves. Therefore, all of the owners live in the cooperative's service territory, with most customers living in rural or semi-rural areas. A cooperative operates on a nonprofit, cost-of-service basis.

An IOU is owned by stockholders who may or may not be customers and who may or may not live in the service area. The IOU is a for-profit enterprise.

**Municipal systems** are usually owned by a city, a state or federal government agency. Municipal customers are usually located in urban or semi-urban areas.

## **U.S. Electric Utilities Overview**

IOUs	Municipals	Cooperatives
Rate regulated.	Not rate regulated.	Most are not rate regulated.
Profit seeking; operated for the benefit of public shareholders with obligations to serve regulated ratepayers.	Operated for public benefit for the region served with obligation to serve customers.	Not-for-profit; operated for the benefit of their member-owners.
Most are large and may have multiple subsidiaries.	Most are small relative to IOUs.	All are small relative to IOUs.
Subject to competition in the wholesale market, with some competition in the retail market.	Little retail competition although subject to competition in the wholesale market.	Little competition.
Tend to have comparable rates with cooperatives and higher rates compared with municipals.	Tend to have lower rates than G&T cooperatives and IOUs.	Rates tend to be comparable with IOUs.
Private shareholder equity; no government support.	No private equity; may have access to local government fiscal support in times of fiscal stress.	Most borrow from RUS and cooperative financial institutions; larger issuers access the capital markets.

## **Balance Sheet Summary**

**Total Assets** reached \$37.1 billion at 2QFY25, a 3% increase from FYE24 and a 32% increase from FYE20.

Gross Loans to Members increased to \$35.6 billion at 2QFY25, a 3% increase from FYE24 and a 33% increase from FYE20.

Members' Equity grew to \$2.5 billion at 2QFY25, a 3% increase from FYE24 and a 44% increase from FYE20.

## **Income Statement Summary**

Adjusted Net Interest Income increased by \$32 million YOY to \$381 million, a 9% increase.

Adjusted Net Interest Income averaged \$328 million over the five-year period.

Adjusted Net Income increased by \$40 million YOY to \$289 million, a 16% increase.

Adjusted Net Income averaged \$223 million over the five-year period.

Adjusted TIER of 1.24 for FY24, well above the target level of 1.10.

Adjusted TIER averaged 1.24 over the five-year period.

## **Definitions of Non-GAAP Financial Measures**

Adjusted Debt-to-Equity (Adjusted Debt Outstanding/ Adjusted Equity)	[Total debt outstanding - (50% of Subordinated Deferrable Debt + Members' Subordinated Certificates)] / [Total Equity – Period-end Cumulative Derivative Forward Value Gains -AOCI + (50% Subordinated Deferrable Debt + Members' Subordinated Certificates)].
Adjusted Interest Expense	Interest Expense + Derivative Cash Settlements Expense (Income).
Adjusted Net Income	Net Income – Derivative Forward Value Gains (Losses).
Adjusted Net Interest Income	Net Interest Income – Derivative Cash Settlements Expense.
Adjusted Net Interest Yield	Adjusted Net Interest Income / Total Average Interest-Earning Assets.
Adjusted TIER	(Adjusted Net Income + Adjusted Interest Expense) / Adjusted Interest Expense.
Derivative Forward Value Gains or Losses	Derivative forward value gains or losses reflect changes in estimated fair value of the interest rate swaps based on the projected movement in interest rates from the current reporting period through the maturity of the swaps in place at the time. They do not represent current-period realized cash gains or losses and are excluded from the calculations of adjusted net income, members' equity and adjusted equity.
Members' Equity	GAAP Equity – AOCI – Noncontrolling Interests – Cumulative Derivative Forward Value Gains (Losses).

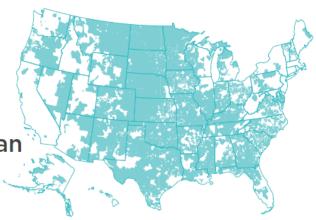

# America's Electric Cooperatives

From booming suburbs to remote rural communities, America's electric cooperatives are energy providers and engines of economic development. Electric cooperatives keep the lights on and play a vital role in transforming communities.

Cooperatives power

56% of the American landscape.

#### Our co-ops ...

... SERVE

42 million people,

including 92% of persistent poverty counties.

... POWER over

22 million

businesses, homes, schools and farms in 48 states.

... RETURN more than \$1 billion

to their consumer-members annually as not-for-profit organizations.

832

distribution cooperatives

are the foundation of the electric cooperative network. They were built by and serve co-op members in the community by delivering electricity and other services.

64

generation & transmission cooperatives

provide wholesale power to distribution co-ops through their own electric generation facilities or by purchasing power on behalf of the distribution members.

#### THE IMPORTANCE OF KEEPING THE LIGHTS ON ...

#### Threats to Reliability

Electric co-ops rely on a diverse suite of resources to reliably meet the energy needs of their communities. Always available energy is key to keeping the lights on. Yet threats to reliability are increasing.

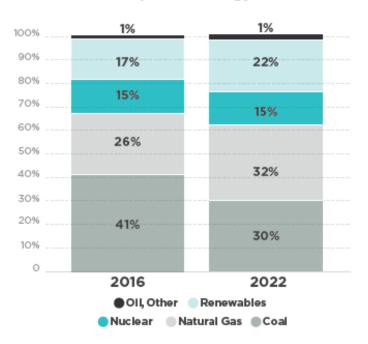

Demand for electricity is growing rapidly. The Energy Information Administration projects that power demand will increase by 2.5% this year and 3.2% in 2025. And over the next five years, peak electricity demand is forecast to grow by 38 gigawatts — the equivalent of adding another California to the nation's grid.

Supply is not keeping up. More than 110 gigawatts of always-available generation — enough to power about 35 million homes — is forecast to retire by 2033.

Public policy is making the problem worse.

As a result, all or parts of 19 states are at high risk of rolling blackouts during normal peak conditions from 2024 - 2028.

#### Co-op Retail Energy Mix

**Note:** Chart reflects most recently available data. Renewables include owned and directly purchased electric generation, plus generation in the mix from wholesale market purchases and do not reflect renewable tax credits. **Source:** NRECA analysis

#### ... AT A COST FAMILIES AND BUSINESSES CAN AFFORD.

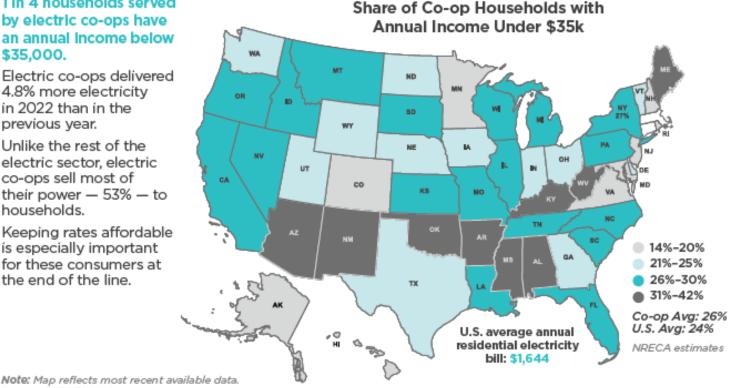

1 in 4 households served by electric co-ops have an annual Income below \$35,000.

Electric co-ops delivered 4.8% more electricity in 2022 than in the previous year.

Unlike the rest of the electric sector, electric co-ops sell most of their power - 53% - to households.

Keeping rates affordable is especially important for these consumers at the end of the line.

Source: 2022 FIA data

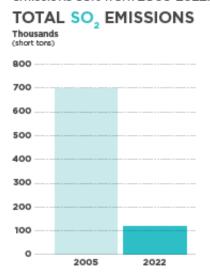

#### CO-OPS ARE REDUCING EMISSIONS

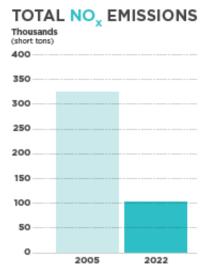

#### Cleaner Air

Cooperatives are meeting member expectations by reducing emissions through a combination of emission-reduction measures and switching to natural gas and renewables.

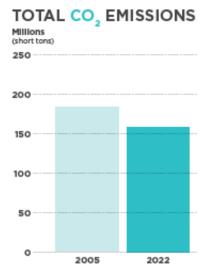

Reduced sulphur dioxide emissions 83% from 2005-2022.

Reduced **nitrogen oxide** emissions 68% from 2005-2022.

Reduced carbon dioxide emissions 14% from 2005-2022.

Note: Chart reflects most recent available data. Source: NRECA analysis of EPA data

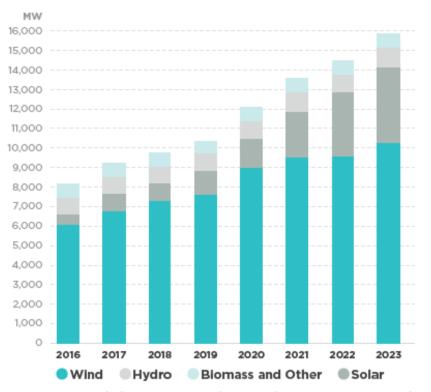

#### Renewable Energy Growth

Co-ops are incorporating renewables to complement always-available generation.

- Since 2016, co-ops have nearly doubled their renewable capacity from 8.2 gigawatts to nearly 15.8 gigawatts.
- Co-ops added over 1.3 gigawatts of new renewable capacity in 2023.
- Electric co-op wind farms and solar arrays generate enough electricity to power more than 3.5 million homes.
- Co-ops have announced more than 5.3 gigawatts of renewable capacity additions through 2027.
- Co-ops also purchase 10 gigawatts of power from federal hydropower facilities.

#### Cumulative Co-op Renewable Capacity, Owned and Under Contract

Note: Chart reflects most recent available data. Does not include federal hydro. Source: NRECA analysis

#### HUBS OF INNOVATION

#### Meeting Tomorrow's Energy Needs by Investing in the Future of Communities

Today, co-ops are positioning themselves to leverage new infrastructure funds to support their communities through programs included in the Infrastructure Investment and Jobs Act and the Inflation Reduction Act.

As of early 2024, over 60 cooperatives in 30 states have been selected to move forward with funding negotiations for more than \$1 billion in federal funding, with more on the way. These include a variety of project types, including:

- Clean Energy Technologies, including solar, hydroelectric and battery storage
- Microgrid Deployment
- Transmission & Distribution Upgrades
- Carbon Capture and Storage
- Electric Vehicles
- Broadband and Smart Grld Investments
- Grid Hardening and Resilience from Natural Disasters
- Long Duration Battery Technologies
